

## Synthesis of LAC MATERNUM

PRODUCT: Lac Maternum is made from the milk of nine women, milk from three days (colostrum) to 10 months after parturition. The different potencies were *lege artis* made by Dolisos Belgium in the spring of 1994.

1. ESSENCE: lack of incarnation
2. CAUSATION: anxiety incarnating into the physical world
3. SENSATION OF FLOATING, OUT-OF-BODY SENSATION; out-of-body experiences; out of reality; living in the past; weak and strange feeling as if not belonging to his body; as if looking down onto his body; as if everything is far away or different; as if he hears himself speaking, as if someone else is talking; feeling that mind and body are separated; not feeling his body any more; as if watching life, not participating; as if invisible to other people
4. VERTIGO; dizzy feeling; feeling as of having no legs, soft legs; empty feeling in the head; feeling of absence; feeling of cotton-wool in the head; foggy sensation in the head; stuffed-up feeling in the head, as if head too large; tendency to fainting, fear of fainting; fainting
5. DAY-DREAMING; clouded thinking; absent-mindedness; difficult concentration; mistakes in speech, saying wrong words; difficult word-finding
6. AWKWARDNESS; bumping into things; hurting himself; knocking things over; falling; unobservant
7. INEFFECTIVE; tendency to procrastinate; having to force himself to realize his dreams or to effectuate his daily occupations; lack of responsibility
8. Feeling of loneliness even in society, feeling of not being seen, not being heard; that people don't show consideration to him
9. EXHAUSTION; weakness; lack of courage
10. SADNESS; LACK OF JOY IN LIFE; sudden changes in mood; laughing alternating with weeping, joyfulness alternating with weeping, irritability and quarrelsomeness; fits of weeping
11. ANXIETY ABOUT LIFE, not being able to face life alone or fear of having to face life alone; SYMBIOTIC RELATIONSHIP with parents, partner, children; humor easily influenced by the emotional state of others; very dependent on others
12. DESIRE TO BE TAKEN CARE OF; wants to be held, to be caressed, but aversion to sex; weak libido
13. LACK OF AWARENESS OF HIS OWN IDENTITY; questioning the meaning of life; chaotic inner feeling
14. LACK OF AWARENESS OF HIS SURROUNDINGS, as if perception is only general and not in detail; as if things do not penetrate; everything looks strange
15. CHILLINESS; icy coldness into the bones, sometimes alternating with heat; COLDNESS of feet, hands, nose
16. DESIRE TO READ, reading giving the possibility of escaping from reality and living in an imaginary world; completely absorbed during reading, not answering when spoken to; pursuing studies to be in another world; fear of completing studies and having to perform; reading impossible owing to lack of concentration
17. UNAWARE OF HIS OWN BOUNDARIES, feels unprotected, porous; everything enters directly too strongly, sound, smell (nausea), energy and feelings of other

people; won't stand up for himself; lack of self respect; lack of care for himself, caring for others, worried by the problems of others; abused by other people; always caring for others; (although these symptoms are typically part of the next layer, Vernix caseosa, they are also part of lack of incarnation since they frequently ameliorate during treatment with Lac maternum)

18. ANGER; irritability at trifles; throwing things away
19. DESIRE TO GO OUT, not feeling well at home (the house being the symbol of the body); not really being aware of his territory, letting others invade his space/energy; absence of any real feeling of being the master at home, with the garden not being fenced-in: unlike Carcinosinum this is not because a lack of self-confidence makes it impossible to resist others, but because he lacks awareness of his own space, his own identity, he unconsciously shares his 'home' with others and is unable to be fully himself; desire to have his own place at home, desire to be alone, to have time for himself; also fear to go outside, because of the feeling of being unprotected; needing the house as an extra protection
20. UNFEELING; INDIFFERENCE; doesn't care about himself and the household
21. UNTIDINESS; unable to tidy up at home
22. ANTICIPATION; diarrhea from anticipation
23. DESIRES: sweets
24. SKIN: eczema; eczema with thick, brown-yellow crusts with dreadful itching all over the body; itching skin; circumscribed eczema with red border, molluscae; psoriasis
25. FALLING-OUT OF HAIR; dry hair; grey hair
26. HEADACHE; migraine with vomiting
27. FLUSHES during/after menopause; flushes from exertion, mental or physical
28. UNREFRESHED SLEEP; restless sleep; shouting during sleep; frequent waking owing to worries; difficulty in falling asleep
29. HEARS VOICES; sees ghosts, telling him a lot of things; sees movements out of the corner of the eye; sees auras of people and trees; fear of ghosts

## CHILDREN

1. CHILDISH BEHAVIOR; wants to be a baby and be held constantly by the mother; very dependent on the mother, wants the mother to do everything for him: dressing him, feeding him, taking him out of bed in the morning etc.
2. Day-dreaming
3. Forsaken feeling; weeping all the time when not with the mother; abhors going to school, wants to stay with the mother (like Saccharum officinale)
4. Desire to be cuddled; desire to be enveloped by soft and tight tissues, remembering the uterine state
5. Unable to differentiate between reality and fantasy; fantasizing; living in both worlds at the same time; no idea of time
6. SLOWNESS, always behind
7. Need for challenges; does dangerous things: stealing, smoking hashish; does things surreptitiously to feel he is alive
8. Putting things off, not much wanting to undertake things; lack of ambition; not attached to material things, can easily share things; dreamy, slow to react; begins a lot of things, but finishes nothing
9. Lack of independence, incapacity to save himself
